

Neurology CPT + HCPCS Mapping Cheat Sheet

Billing & Reimbursement Quick Reference | Allzone Management Services

This cheat sheet provides a practical CPT-to-HCPCS crosswalk for common neurology services. It helps neurologists and billing teams submit clean claims, reduce denials, and improve reimbursement accuracy.

Neurology Service	CPT Code(s)	HCPCS Code(s)	Notes
Botox – Chronic Migraine / Spasmodic	64615, 64642–64647	J0585	Report per unit; use JW/JZ if applicable
Chemodenervation Supplies	—	A4215, A4550	Needles, trays
IVIG Infusion	96365–96368	J1459, J1561–J1569	NDC & dosage required
MS Infusion Therapy	96413	J2323	Natalizumab
Deep Brain Stimulator Implant	61863–61867	L8679, L8680	PA required
Neurostimulator Battery Replacement	61885	L8686	Replacement battery
EEG Services (Supplies)	95816–95819	A4556	Disposable electrodes
Sleep Study Equipment	95810	E0601	CPAP device
Mobility Assistance	—	E0100, E0114	Cane / crutches
Visit Complexity (Medicare)	99215	G2211	Medicare-specific

Best Practices for Neurology CPT + HCPCS Billing

- Ensure CPT and HCPCS codes are compatible
- Verify payer policies and prior authorization requirements
- Report correct drug units and modifiers
- Include NDC numbers for injectable drugs
- Audit high-dollar neurology claims regularly

About Allzone

Allzone Management Services specializes in neurology medical billing, coding, and revenue cycle management. We help neurology practices reduce denials, improve clean claim rates, and optimize reimbursement.
